Deiro Again Discharged.

The examination of Joseph Deiro, charged with the murder of Jose Garcia, closed last evening abruptly upon the motion being made by District Attorney Land that the accused be discharged. Mr. Land stated in connection with this motion that no evidence had been adduced which would justify the examining justice in holding Deiro to answer before the District court, the new evidence in the case proving more hearsay.

If the witnesses produced in addition to those who testified before the coroner did really know anything which could be considered of value they failed to disclose it yesterday, and any further action in the case promised only to put the county to a very considerable expense without any compensating benefit to the community.

Dull headache, pains in various parts of the body, sinking at the pit of the stomach, loss of appetite, feverishness, pimples or sores are all positive evidence of impure blood. No matter how it becomes so it must be purified in order to obtain good health. Acker's Blood Elixir has never failed to cure Scrofulous or Syphilitic poisons or any other blood diseases. It is certainly a wonderful remedy and we sell every bottle on a positive guarantee. Sold by J. S. Williams & Co.

Chris Thielan, a machinist who has been employed in the railroad shops here for the past month, died very suddenly about 10 o'clock this morning at his room. His age was about 42. He is said to have relatives in Chicago and to have worked in several of the railroad shops through the southwest. An inquest in the case is being held as we go to press, no evidence having yet been given as to the cause of death or other particulars in the case.

Private C. W. Freeman, of the returned Colorado regiment, it is said, introduced the diverting game of "craps" in the Philippines, and incidentally won a circus thereby. He is also reputed to have brought with him \$9,000, which he secured in his operations. He did not keep the circus.

Kodol Dyspepsia Cure cures dyspepsia because its ingredients are such that it can't help doing so. "The public can rely upon it as a master remedy for all disorders arising from imperfect digestion."—James M. Thomas, M. D., in American Journal of Health, N. Y. Copper Queen store.

The report of the sale of the Daily group of mines, lying just east of the Copper Queen Co.'s properties, by the owner Martin Costello, was recently referred to in the O.K. As such a sale would be an important one and the consideration doubtless reaching into the hundreds of thousands of dollars, the item obtained considerable notice. We are now able to state from direct information that while the sale has not yet been concluded the negotiations have so far progressed that but little doubt is entertained of the sale being actually made within a very short time. As to the terms of the sale, or the names of the prospective purchasers Mr. Costello is, as yet reticent.

COPPER IS THE METAL.

The Cochise Copper Mining Company, Bisbee, Arizona.

This company owns a very valuable group of mines situated in Warren mining district, county of Cochise, Arizona, lying immediately east of and adjoining the town of Bisbee, and adjoining the property of the Copper Queen Consolidated Mining company on the north. The latter company has been in operation for about twenty years, and employs about 1,500 men daily in the operation of its mammoth mine and smelters, and as a result has produced copper to over 34,000,000 pounds during the year 1898, and the net proceeds of such production are reported to have been over \$2,000,000, and it has been said by experienced miners who have been under its employ for years, that the Queen mine now has sufficient ore in sight to keep it in constant operation for the next twenty years without further development.

Is it not reasonable to believe that the property of the Cochise company is fully as valuable, when it is within such close proximity to such a wonderful mine?

The blasts set off in the underground workings of the Queen property can easily be felt and heard at the shaft of our mine, and oftentimes the concussion has attracted marked attention.

The original owners of these valuable mines are local business men, well and favorably known in Bisbee and surrounding vicinity, who are doing their utmost to make this enterprise a success in every respect. The board of directors are original owners, and are donating their services to the company until such time as the mine will pay dividends. They own the controlling interest in this property, and as a protection to stockholders have placed their entire interest in escrow for a term of one year.

The stock books of our company are now open for subscriptions, and a limited number of shares are offered at ten cents per share. No application for less than 100 shares will be accepted.

The company reserve the right at any time to advance the price of shares without further notice, or to reject any application for stock at their discretion.

Every cent received from the sale of stock will be expended toward the development of our property and the erection of further works, and all other necessary improvements, and to make our enterprise a success in every particular.

We invite investigators and their experts or their engineers to closely scrutinize our property. Applications for shares may be made to any of the directors of the company, or to any of our legally authorized representatives.
